Highlights

1. According to the official resolution nº 75 Series I of July 30, the Government:

- Approves the acceptability of the COVID Certificate, as a document proving the low risk of its holder being a COVID-19 active patient and a measure to facilitate free movement and carrying out activities in the context of the COVID-19 pandemic;
- Approval of the regime for the issuance, verification, and acceptance of COVID Certificates from Cape Verde and recognition of COVID Certificates issued by third countries or multilateral institutions.

The "COVID Certificate of Cape Verde" is issued by the Ministry of Health, free of charge (except in the case of issuing a new certificate due to loss or request for issuance in paper format), through the web platform <https://nhacard.gov.cv/>, at the municipal health units, at "Casa do Cidadão" and in the Municipal Councils counters, and also in the "Nha Card" application, available in Google Play and Apple Store.

2. Taking into account the current evolution of the COVID-19 epidemic in the country, the government of Cabo Verde has decided to relieve some measures, as declared by the Minister of the Presidency of the Council of Ministers on the 4th of March. The measure comes into force at 00:00 on the 6th of March and will be in force for 30 days. It implies the following changes:

- The use of a face mask in public spaces is no longer mandatory, but it remains mandatory in closed spaces, or with places providing customer service, except for nightlife venues.
- The presentation of a covid-19 certificate of vaccination or negative test is no longer required to access restaurants and bars but is still required to access clubs and nightlife venues, as well as on inter-island and international trips.

Resolution No. 23/2022 is available in the Official Bulletin No.24 Series I of the 4th of March and can be accessed at https://covid19.cv/wp-content/uploads/2022/03/bo_04-03-2022_24.pdf.

3. The resolution No. 36/2022 of 7th April approved the complete vaccination schedule against COVID-19, including an additional booster dose, in addition to the second dose or single dose.
