Recommendations from health authorities

- If you experience any symptoms after vaccination, contact the nearest health centre or call the free hotline 800 11 12 for guidance or through the website <https://Covid19.cv/vacinas/> and fill in the form to report adverse effects following immunization to the Independent Health Regulatory Authority (ERIS).
- Keep the vaccination certificate that serves as proof of vaccination against the COVID-19.
- The booster dose is available for the entire population over 18 years of age who have completed their vaccination schedule for more than 3 months, in two doses.
- The **Nha Card** platform platform that issues the Covid19 certificate with a booster dose. Request or renew your certificate on the website: www.nhacard.gov.cv
- People vaccinated with the first dose and who have already completed 2 months, should look for the vaccination posts to take their second dose of vaccine. To take the booster dose the person must have completed 3 months after taking their 2nd dose.
- Now, the Ministry of Health recommends the 2nd booster dose for people over 12 years old, especially those over 60 years old or with chronic diseases. The same can be taken three months after the 1st booster dose.
